EXPERIENCE

Full Stack Developer Intern — 2025
Code B Solutions Pvt Ltd, Pune, India

- Developed a Group Management Dashboard for adding, updating, and deleting groups.
- Built a secure User Authentication System with access control.
- Optimized backend processes for efficient data handling and retrieval.

PROJECTS

News App. A dynamic news portal using HTML, Tailwind CSS, and JavaScript that fetches real-time news from GNews API with category and search filters.

GameStop Authentication System. Spring Boot-based system with secure registration, login, and OTP-based password reset via Email and WhatsApp. Includes role-based access control and photo upload features.
